

The background is a dark blue color with several lighter blue, organic, blob-like shapes scattered across it. Overlaid on this are several thick, hand-drawn style lines in various colors: a light pink line on the left, a gold line on the right, a gold wavy line at the bottom left, a pink wavy line at the bottom right, and a brown line at the bottom center. A thin white border frames the entire composition.

The Training Academy

## Lip blush

Add on course.

# Introduction

This course is for those who have already received a certificate from Sian Danielle upon completion of another area in permanent make up. Therefore, the student will have already shown they have knowledge and skills to further advance into this area.

The lip blush add on course includes 2 days hands on training with Sian Danielle who has over 7 years' experience specifically in the permanent make up industry.

Sian is a licensed and insured artist and trainer who prides herself on being passionate about her work and ensures plenty of time is dedicated to her students to achieve great results and obtain detailed knowledge specific to permanent make up.

The Lip Blush add on course awards beginners level Lip micropigmentation in the popular lip blush style.

## Lip Blush

Lip Blush enhances the lips giving a healthy colour when healed and a more defined border. Some clients opt for a slightly more vibrant finish whilst over simply want the lip blush to enhance the natural colour of the lips.

# Course structure

## Home Study

Completion of at least 30 hours home study is compulsory. Proof of completion due to previous training with Sian Danielle must be confirmed. It is expected to arrive with a substantial understanding of all modules.

## Technical 1-2-1 Training

This is the practical 1-2-1 training, working on technical skills. This includes observation time whilst shadowing the trainer and live models for the trainee. Close guidance throughout. Lunch, snacks and drinks will be provided.

## Case Studies

Case Studies will be a necessity for the trainee to pass. Roughly 12 weeks will be given for the trainee to go away and complete at least 6 models for their portfolio.

## Assessment Day

Returning roughly 12 weeks from the technical 1-2-1 training with a completed case study portfolio, the trainee will need to complete a live model for assessment by themselves from start to finish.

Certificate of completion will be awarded if the work is to a high enough standard.

## Optional Shadowing

The trainee will have the opportunity to return to shadow the trainer for an extra treatment to reinforce the skills and knowledge learnt. This is not mandatory.
